

ABtUS ECO Digital Speaker VS Analog Speaker

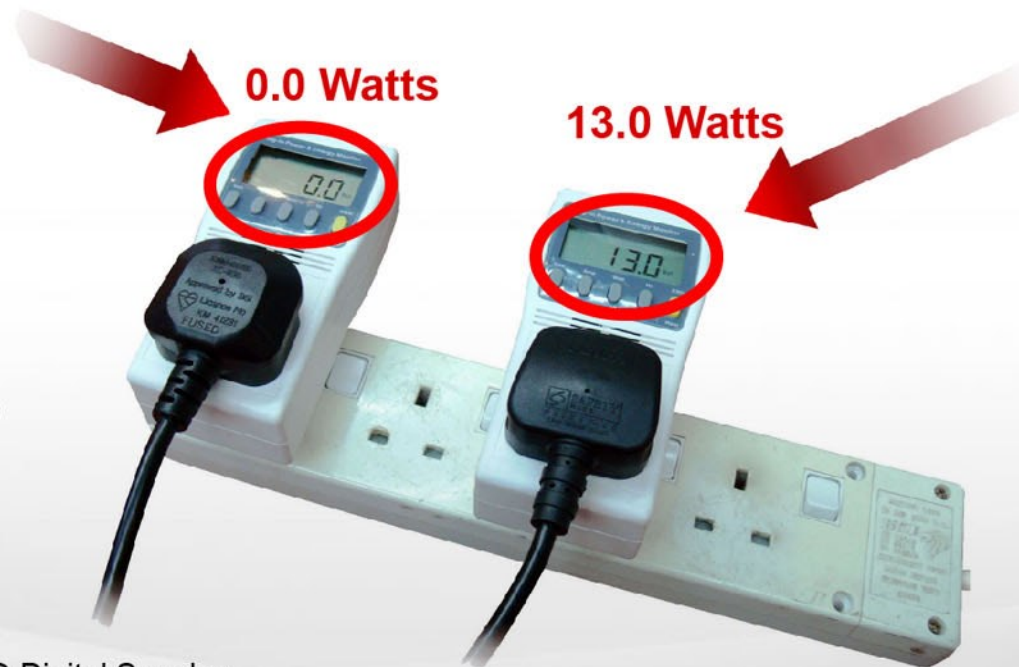

ABtUS ECO Digital Speaker
25 Watts per channel (SPS-S025A1)

Speaker system with following difference and changes against traditional Analog amplifier:

1. Integrated Switching Power supply unit for max power efficiency
2. Integrated Digital Amplifier flow for low power consumption
3. Efficient Class-D Operation, eliminates the need for heat sinks
4. Integrated with input signal sensing with auto power ON/OFF (Sleep mode)

Traditional Analog Speaker
25 Watts per channel

ABtUS ECO Digital Speaker
25 Watts per channel (SPS-S025A1)
Under Standby Mode

Traditional Analog Speaker
25 Watts per channel
Under Standby Mode
